11	I know who to talk to at school if I am worried.	110	5	3

- The majority of students feel safe and happy at school and feel that they are listened to.
- Knowing how to stay safe online, pupil behaviour and knowing how to stay safe when out, scored the lowest. This needs to be examined further in Phases when results are discussed with pupils e.g. pupil behaviour could be approached through awareness raising activities/ assemblies to talk about why some behaviours occur.
- Phases, where applicable, could increase community participation opportunities for all pupils to develop road safety awareness and stranger danger awareness.
